SKILLS

I've been described as a *shooting star developer* by those who value my ability to quickly ramp up and solve complex delivery and enablement challenges. Others describe me as a *rising tide developer* which can make an entire organization more productive by being there to help.

EXPERIENCE

United States Airforce, [REDACTED] — Software Developer Consultant

Contract with VMware Tanzi Labs

NOV 2018 – DEC 2020

- Grew an organization from 10s to 100s of ICs through practice leadership
- Dived in to deliver on high-complexity, high-value problems
- Provided insight and expertise on cross-domain opportunities

Ford Motor Company, Detroit, MI — Software Developer Consultant

Contract with Pivotal Labs

APR 2017 – NOV 2018

- Unified & optimized vehicle Hadoop big-data store using the Spring Stack
- Engineered modern time card webapp while maintaining backwards compatibility with IMS on z/OS
